

INTERNATIONAL REFERENCE LIST

NAMIBIA - Musese river pump station, Okavango

Water is abstracted from the Okavango river on the northern Border of Namibia to Angola. Through a 600mm Ø GRP CI12 pipeline 1150 m³/hr at 7 bar, water is transferred for 2000 m to 10 centre pivots.

Power is supplied from the grid to 3 off electric driven centrifugal pumps, 90 kW 380 V. The pump station is fully automated PLC controlled.

Position: **S 17.82919 E 018.93135**

GHANA – Tema, Booster station (Ghana Water Company Ltd) MUT2200EL + MC608I with integrated GSM/GPRS

Kumasi Booster (GWCL) MUT2200EL + MC608I with integrated GSM/GPRS

AUSTRALIA – irrigation

AUSTRALIA – mining

AUSTRALIA - billing

AUSTRALIA - fire service

PAKISTAN - Wasa, Faisalabad, Punjab (29 MUT2300 DN300 PN16)

NORWAY – Ballast system

SAUDI ARABIA – Pumping station north of Jeddah

TURKEY – Melen Municipality

We installed 2 EMF size DN2000 and 3 size DN1400

MIDDLE EAST – Pumping station

EGYPT - El Ayat Water Treatment plant

We installed 6 EMF sizes DN300 to DN1200

GHANA - Major Project for the Water Authority

Water system on the entire Region.

700 EMF from DN80 up to DN1400 installed all around the Country, provided with MC608I converter, with integrated GSM/GPRS data transmission.

PERU - Mining installation

Our EMF measure the volume of water used in the mine.
Customer asked for Teflon even for large diameters (10 & 12") due to the acidity of the liquid.

MEXICO

75% of the water in the country is being extracted from the underground.

Recently the government has authorised the use of EMF to measure it, so it is more and more a primary source.

Euromag is one of the few brands which has acquired the approval for the products to be installed in those pumping stations.

MEXICO2 – Waste water treatment

NEW ZEALAND – Irrigation

FINLAND – Waste water treatment

THE NETHERLANDS – Fire fighting system

Our EMF measure the water used to make foam

KOREA

Water treatment and cleaning plant

Euromag EMF will measure recycled water.

KOREA 2 - Water Treatment Plant

Euromag has installed 20 EMF all in SS304

TURKEY – Shampoo factory

Euromag has been approved from DSI (State hydraulic works). Our EMF will be used in all potable/waste water projects in Turkey.

They built a new line for batching totally monitored by Euromag EMF (the cycle consists of 30 flowmeters in series).

UGANDA - National Water & Sewerage Corp.

15 insertion EMF model MUT2700 for hot tap application

PORTUGAL - Lisbon Municipal Swimming pool

Our EMF measure the quantity of water used in the swimming pool

USA

Chemical company dealing with raw materials to the concrete industry

SWEDEN - Municipality

PHILIPPINES – Metro Manila

MALTA - Reverse osmosis plant

18 EMF with flanges ANSI 600 in SS316 installed so far

SEYCHELLES - Water Treatment plant
Wafer EMF all sizes DN150

ITALY - Cooling plant for the production of polypropylene products

ITALY2 – Municipality of Rome

SPAIN - TRAGSA Project for Ballobar and Ontiñena between Barcelona and Zaragoza.

120 Units divided between electromagnetic flowmeters and ultrasonic flowmeters installed in the Region for irrigation system and water control.

SERBIA - Waste water treatment pipe.

Sensors are mounted on concrete pipe, thickness of wall is about 35mm, diameter inside is 250mm, outside diameter is about 310mm.

Device works properly and end user is satisfied.
