

Ownership structure and representation

Established in 2005, EUROMAG SA is currently **the largest and most modern magnesium die casting foundry in Poland**, using hot-chamber technology. It is a magnesium component **supplier for automotive, machine and electric tool industries as well as for construction and interior design applications**. It is owned in 100 percent by **Tar Heel Capital, a Polish-American venture capital fund**, which has been operating in Poland since 2003.

The Board of Management of EUROMAG SA is represented by:

1. Grzegorz Bielowicki – the President of the Board,
2. Jarosław Litwiński – the Vicepresident of the Board,
3. Krzysztof Turowski – the Vicepresident of the Board.
